

CLASSROOM RECORDING STUDIO

Space and Acoustics

- ☐ Identify a dedicated space like a quiet corner or use dividers to create a semi-enclosed space.
- ☐ Add sound treatment with foam panels or padding to minimize echoes and absorb sound.
- ☐

Equipment

- ☐ Device with a built-in microphone (laptop, tablet, phone)
- ☐ Headphones (optional)
- ☐ External microphone - a USB microphone is a good start (optional)
- ☐

Software

- ☐ Device camera or voice memo app
- ☐ Digital Audio Workstation (DAW) like GarageBand, Soundtrap, or BandLab (optional)
- ☐

Optional Enhancements

- ☐ "On Air" sign (simple, yet brings excitement and joy to the space)
- ☐ Audio interface - for better sound quality and more microphone/headphone inputs
- ☐
